Buckingham The beautiful rains we have had the past week have caused the topacco crops to start out from the hill and the prospect for good crops of corn is good

Men are still trying to dis pose of the surplus of old flour and one local farmer is said to be offering flour as low as \$5 a barrel.

I was offered a good quality of rice at 4 cents a pound and a merchant told me the wholesale price on sugar was 5 cents a pound. Corn bought on the Richmond market and shipped here cost \$1.02 a bushel. Old plug horses find no sale and good horses are not in demand on the local market. Pigs and shoats are in great demand and very scarce sill. Hams selling on the local market for 25 cents a pound, shoulders 20 cents and middling from 15 to 20 cents for good smoked meat.

The statement was made in one of the city papers last week that 5000 car loads of peaches had passed a given point on the Southern Ry. this summer. I found a lot splendid canned peaches in a local store and I purchased a whole lot at 25 cents a can.

The John A. Gough farm and house is to be sold this week. There are many legatees and the bidding is likely to be spirited.

Mr. P. G. Davis is laying the foundation for a nice house on his farm adjoining Dillwyn.

Miss Marian Forbes after making a visit to friends at Fredericksburg is spending her vacation in Buckingham and with the opening of the schools will resume her duties in Rich.

Miss Liza Haskins is preparing to go to Fredericksburg school the coming session.

Miss Harriet Johns has been offered a position in the high school here.

for the legislature. Mr. Frank Garrett, of Red Star, W. Va., was married out there last week and he and his ever bride are expected soon to visit his old home here.

The poorer class of people are buying what they can on time rather than work for the wages that are now being offered them. The fields are full of sumack, but they say they will not get it for \$1 per

hundred. Farmers are warned to watch the meat hanging in their smoke houses as many people have lost meat during the long wet spell we have had. New blackberry wine is the

drink now in use and it makes some of those who drink it sick judging from appearances. Wood choppers are charging 75 cents a cord for cutting

wood now. Wealthy people can now get hired cooks since money is getting scarce, but most ladies are content to do their own housework.

Mr. and Mrs. W. J. Hubard and Miss Sarah Hubard have come home from their vacation. A principal has not been secured for the high school here as yet.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. Here's why CAMELS are the quality cigarette

PECAUSE we put the utmost quality into this Done brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper -secure foil wrapping-revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember-you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigaretty aftertaste,

It's Camels for you.

Who are more thrifty== Men or Women?

Some say that women are more thrifty than men. We do not know about this. It is very much like say. ing that women are more honest than men. Nobody knows, and we don't think such-questions as these will ever really be decided.

The thrift proclivity is not influenced by anything. that is peculiar to either sex, in our opinion.

Any man or woman with a brain and a backbone can be thrifty. Any thinking person can see the desirability of being thrifty, and any person with vim and self-control can be theifty-man or woman, boy or
